

REMARKS

The amendments to the Specification do not involve new matter. The amendments are as previously presented and accepted in the parent Patent Application.

The Examiner in the parent Patent Application informally indicated that some of the instant claims may provoke an Interference with unidentified applications pending in the Patent and Trademark Office.

Respectfully submitted,

  
Joseph E. Mueth  
Reg. No. 20,532

Dated: October 4, 2000

225 South Lake Avenue  
Eighth Floor  
Pasadena, California 91101
